The warranty period is based on a burning behaviour of a maximum 4,000 hours per year.

This warranty only covers products applied within their intended or normal use such as the operating conditions in accordance with the product data sheets and its packaging; and ambient temperature shall not exceed the operating temperature range - 20degC to +45degC; and Relative Humidity in the installation shall not exceed to 80% RH or shall not exceed the IP Rating of the product; and items are operated in an open luminaire, with 10mm minimum air around the body; and product shall not have more than a total of 20,000 fast switches or the time between "on" and "off" shall not be less than 10 minutes; and the electrical installation in which this item operates shall not be subjected to voltage fluctuations in a range of 230V +/-10%.

Further, this warranty does not cover abuse, cosmetic damage, or damage due to nature, acts of God, misuse, negligence, or disassembly or modification of any part of the product. The warranty does not cover damage due to the failure to follow proper installation and operating procedures, in addition to the following reasons: Loss of or damage to the product due to abuse, mishandling, alteration, accident, or electrical current fluctuations. Fumaco is not responsible under any circumstances for the removal of or reinstallation of any product, nor for the expense accumulated thereof.

The defective items shall be subject to inspection prior to replacement, and proof of purchase for the said items shall be made available for verification by Fumaco.

\* Until supply last.

\*\*For items not covered by warranty, we allow 7-days return period from date of delivery for the replacement of defective lamps/items.
